

Keep your money safe

Protecting yourself against fraud is very important. Here are a few ways to keep your money safe by protecting your Amboy Visa Check Card and your Deposit accounts.

Use a PIN

When using your Debit Card at your local retailer you have the choice of using your card either as a Debit Card or Credit Card. Try using it as a Debit Card and enter your PIN instead of signing .

A PIN transaction protects your account because a PIN based transaction is processed and confirmed through the bank. Also, PIN transactions are generally processed faster than signature transactions.

Don't forget your PIN!

Memorize it well and don't write it down ANYWHERE. Keep your PIN a secret. Don't ever give your PIN over the phone and realize no one from the bank would ever ask you for it.

Set up Alerts

With Amboy Bank's online banking, you have many options to set up alerts. Alerts help you keep track of activity on your account as it happens.

With alerts, you get an email or text message. If you question a transaction call us right away at **877.22.AMBOY**.

We're here to answer your call:

Mon - Thurs	8:30 am - 7:00 pm
Friday	8:30 am - 5:00 pm
Saturday	9:00 am - 1:00 pm

Be smart with emails

Never send confidential information via email or in response to an email.

Amboy Bank will never ask you for an account number or PIN via email.

We use email for communication and never to ask for account information.

If you're ever suspicious about an email you can ask us about it or DELETE it.
